### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or fairly suggest a multi-piece golf ball comprising a core; a first intermediate layer; a second intermediate layer; and a cover, wherein the first intermediate layer comprises a plurality of ribs formed on the core, the second intermediate layer is placed in concave portions surrounded by the ribs, the cover forms an outermost layer, the ribs extend in such a manner that the widths thereof become wider from the cover side to the core side, the concave portions are formed into a cone-like shape by the side surfaces of the ribs, the hardnesses of the core, the first intermediate layer and the second intermediate layer are different from each other, and the hardness of the first intermediate layer is greater than that of the second intermediate layer.

After further consideration and a review of applicant's arguments the double patenting rejection over patent 6,955,613 is withdrawn. While the instant invention and the '613 patent claim very similar features for the golf balls, the limitations regarding the differences in hardness for each layer and the hardness of the first intermediate layer greater than the second is not claimed in the '613 patent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
